In all, the treasures of the San Pedro golden images as the gloated first nearly a century ago.

Then there is the Hussar, an English man-of-war, which sailed away to the west in 1780 laden with gold to pay British soldiers and sailors. It is said

No joy or pleasure on this earth quite equals that which comes into the home when baby arrives. Who can describe the happiness of man and woman, joined in wedlock, as they look upon the fragile, delicate mite that is blood of their blood

and flesh of their flesh? And who can depict the hopelessness and dejection that hover about the home where the wife is incapable of becoming a mother? Barrenness proceeds from some derange-ment of the distinctly feminine organs. Many of the common ailments known as "female troubles," cause it. Dr. Pierce's Favorite Prescription overcomes barrenness by stamping out diseases of women and by healing and curing ulceration. It tones up the system, stops drains, and restores strength. During gestation it modifies morning sickness, gives elasticity to the overstrained parts concerned, makes the hour of baby's coming short and almost painless, and gives wonderful recuperative power to the patient. By making the mother strong and cheerful, it makes the little one healthy, vigorous and good natured. Insist upon the medicine dealer giving you Dr. Pierce's Fa-vorite Prescription when you ask for it.

Substitutes are often dangerous. Mrs. James W. Blacker, of 629 Catherine St., Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor; I had four miscarriages, but since taking Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' I have much better health, and now I have a fine healthy baby."

Although many companies have tried in vain to recover this submarine hoard there is no doubt of its exis-tence, for coins are constantly being

washed up by the tide as tantalizing evidence of the richness of the coffers from which they have drifted.

In a cave in the Auckland islands may still be recovered all the gold that the good ship General Grant was carrying when she started in 1866 on her voyage from Melbourne to London, with a passenger list of miners return. with a passenger list of miners return ing with their riches from the Ballarat Occasionally, when Davy Jones is in an amiable mood, he will release part of his booty, but he takes care to clutch what remains more tightly still. When MUNYON, Philadelphia

La Lutino, a captured French frigate, sank under the waves of the Zuyder Zee, a little over a century ago, she took 330 bars of gold down with her, in addition to much silver bullion and £127,000, the pay of the troops in Holland. Within a year of her foundering £55,000 had been recovered; fifty years or more later she gave up another £50,000; but on the rest of her hoardshe was insured for a round £1,000,000—she still keeps a jealous hold.

And again—as evidence that Davy Jones is not quite so bad as he is pic-

tured—of the ten boxes of gold that went down with the Alfonso XII off the Canaries some years ago, nine have been recovered. Davy keeps the tenth. TO CURE A COLD IN ONE DAY Take Laxative Bromo Quinine Tablets. All druggists refund the money if it
